EN-CORE

pilates-cardio fusion

The EN-CORE workout is a unique, high energy/no impact exercise class that combines barre work and light weights with continual fat burning motion.

It is the most effective, fastest, yet safest way to change your body – fusing elements of ballet, Pilates and weights in a 55 minute intense session.

Central to the workout are toning and resistance exercises for the glutes, legs, torso and arms to sculpt muscles and elongate the appearance of your body.

When you work at the barre you have a sense of centre and balance that allows you to concentrate on the muscle group you are working on. The body is worked as both a coordinated whole and in isolated muscle groups, maximizing the body's full potential.

You'll have fun while getting in shape in a comfortable, personalized atmosphere.
