

ST JOHN'S COLLEGE

# ADVANCEMENT NEWSLETTER

December 2024

## MESSAGE FROM THE HEAD OF ADVANCEMENT

---

As we approach the close of another remarkable year, I am delighted to share this donor report, which highlights the profound impact your generosity has had on St John's College.

One of the year's most memorable moments for us was the unveiling of the Beyond 125 Donor Wall on the 17th of October. It was an honour for us to celebrate the generosity of our St John's community by adding their names to the wall; there are currently over 800 Old Johannians, parents, staff, OJ Parents and Friends of the College represented, a clear illustration of the St John's values of Lux, Vita, Caritas. Your names are now part of the fabric of the school and we know that many more will be added in the years to come.

On a personal note, I had the privilege of accompanying Headmaster Stuart West on visits to Australia and Cape Town this year, where we had a chance to meet and thank our friends and supporters in person. We truly value our international community of Old Johannians, past staff and OJ Parents, and it was a privilege and a joy to share time with them.

This year also marked significant achievements in our *Academy Programmes*. Our Matric Academy boys have completed their final exams, and we are confident they are prepared to thrive in the next chapter of their journeys. Meanwhile, our *Centenary Scholars* have continued to excel with many of them taking leadership positions in 2025, exemplifying the academic and personal growth your support makes possible.

Thank you for your unwavering commitment and support in 2024. Together, we are shaping futures, inspiring excellence, and changing lives.

With heartfelt gratitude,

Shelley Roberts  
*Head of Advancement*

## WHY WE GIVE TO ST JOHN'S - DONOR REFLECTIONS

---

It's hard to put into words the profound impact St John's College has had on my life. As a pre-prep "survivor," I often feel that the school survived me, rather than the other way around—a sentiment I'm sure Mr. Midgely would happily confirm. As a highly energetic boy with a deep passion for sports, St John's was the perfect environment for me. My time at the College not only allowed me to pursue my love of sport but also instilled in me the importance of balance, humility, and the meaning of serving as part of a team.

As a member of the Class of 1993, my peers and I experienced a uniquely transformative period in South African history, during which St John's College played a significant role. While the rest of the country grappled with the challenges of segregation, St John's stood as a beacon of unity, embracing the diversity of our rainbow nation. The school's seemingly effortless commitment to equality and opportunity set it apart. Looking back, I can see how these values have shaped my own empathy, respect, and dedication to giving back.

Being part of this community during my formative years made contributing to the College a natural and heartfelt decision. I feel privileged to have the opportunity to help shape someone else's future, in the hope that they too will be positively impacted by the St John's community, just as I was.

- *Rory Meleniclis (Thomson 1993)*

---

We are very honored to be a part of the Beyond 125 anniversary. We would like to express our deep gratitude for the outstanding work your school does in supporting and nurturing its students. It is evident that the school places great importance on both academic excellence and personal development, creating a well-rounded environment where students can thrive. Our children have greatly benefited from the dedicated teaching staff, the wide range of extracurricular activities, and the emphasis on fostering independence and responsibility. The school's values of respect, integrity, and community are not only taught but also lived out daily, and it is clear that every effort is made to ensure each student feels valued and encouraged to reach their full potential. Knowing that our children are in such a positive and inspiring setting gives us great peace of mind. Thank you for your tireless commitment to providing such an exceptional education and for the care and effort you put into shaping the future of your students.

- *Maggie Wang, parent*

---

It is a privilege for me to be able to donate to the SJC Academy programme as I believe it gives more boys an opportunity to experience the culture and education of SJC. SJC is an institution that produces an incredible standard of schooling and I believe by supporting this programme we can empower more individuals and invest further in the future of our society.

- *Toni Anderson, parent*

As a beneficiary of the scholarships programme at St John's College I hope that my contributions assist St John's College in continuing to provide individuals the opportunity to attend and benefit from what St John's has to offer. St John's allowed me to pursue my passion for cricket and laid the foundation for my academic excellence. My time within St John's showed me that learners are pushed to be well rounded individuals given the opportunities and resources that the school provides.

Seva is a Sanskrit word meaning to do something for someone else without expecting anything in return. I am fortunate that I have benefited from the scholarship programme and thankful that I can contribute to the continued success of these programmes.

- *Rohan Dullabh (Clayton 2005)*

---

I wanted to share some thoughts on why donating to the St. John's College Endowment Fund is such a meaningful decision for me.

Firstly, I truly believe in the power of education. By contributing to the endowment fund, we can help ensure that St John's continues to offer high-quality education to future generations. This fund supports scholarships, academic programs, and campus improvements, making education more accessible and enriching for students. Another reason is the long-term impact. Donations to

the endowment fund are invested to generate income over time, meaning our contributions will support the college's mission for years to come. This helps maintain financial stability and allows the college to plan confidently for the future.

On a personal note, as an OJ (Nash 1981) and with my sons (Nash 2014 and 2017) also being Old Johannians, supporting the Endowment Fund is a way to give back to an institution that has been significant in our lives. It's a way to honour the mentors, teachers, and experiences we've had at St John's.

Moreover, donating to the Endowment Fund contributes to the broader St John's community. It helps foster a vibrant academic environment and supports the College's efforts to remain a leader in primary education. It's a lasting legacy, and I'm proud to have our family name associated with the College's ongoing success and growth.

Endowment funds can be directed towards scholarships and financial aid, making education more accessible to deserving students who might not otherwise afford it. Our contributions help create opportunities for talented and motivated individuals, ensuring financial constraints don't hinder their educational aspirations.

Lastly, there are tax benefits to philanthropic donations, which is an added incentive for us.

- *Damian Boyce (Nash 1981), past parent*

## BEYOND 125 CAMPAIGN DONOR WALL

---

The Donor Wall stands as a testament to the generosity of our community and acknowledges those who have given to the ongoing Beyond 125 Campaign, since it launched in 2019.

More than **800** individual donations form a rich tapestry of names reflecting a shared commitment to shaping a brighter future and a belief in the transformative power of education. Behind each name is a connection to St John's College and a story of giving and gratitude. Together, these contributions create opportunities and inspire growth, leaving a legacy for generations to come.

In October, we unveiled the Donor Wall and marked the occasion with a cocktail event to thank our incredible benefactors. Please read the full article [here](#).

We are updating the wall regularly, please contact [advancement@stjohnscollege.co.za](mailto:advancement@stjohnscollege.co.za) if you would like more information.

## ACCESS TO EDUCATION

St John's College is deeply committed to expanding access to quality education, recognizing that talent and potential are not limited by socioeconomic circumstances. Through scholarships and outreach programs like the St John's College Academy, we ensure that deserving students from diverse backgrounds can benefit from a world-class education. By providing these opportunities, St John's not only transforms individual lives but also fosters a richer, more inclusive learning environment where all students gain from a diversity of perspectives. This commitment to access emphasizes the school's mission to cultivate leaders who will make meaningful contributions to society.

Partnering with under-resourced schools in Johannesburg inner city and our immediate community, the St John's College Academy continues to transform lives by supporting high-potential learners, equipping them with the skills, mentorship, and resources needed to excel academically and beyond. With a strong focus on leadership, critical thinking, and holistic development, the program not only empowers individual students but also enriches the broader community. Bridging the gap between potential and opportunity, the St John's College Academy stands as a beacon of hope.

I'm grateful for the opportunity to be chosen to be one of the Academy boys. I remember the day I received the message, I was so excited, my family as well. The day we went with my mother to tour the school was very important to me because I got the chance to see the school and learn more about it. Our teachers are very friendly and they always make sure we are comfortable. The English and Maths we learn at the Academy has helped me to do well in my exams. I always look forward to Fridays sports day to play soccer and cricket. I enjoy food they prepare for us especially the pasta. I can't wait for what's coming next year, I am ready to do my best.

*Alexander  
Yeoville Boys Primary School*

Dear St Johns Academy. The experience in St Johns was exciting. I got to participate in many sports and also it helped me with the assignments that I got in school.

*Israel  
Yeoville Community Primary School*

## PROGRAMME IN FOCUS - ST JOHN'S PREP ACADEMY

The St John's Prep Academy serves boys in Grade 6 and 7 from Asteri, Yeoville Community College and Yeoville Boys Primary School. This year, students have attended St John's four days a week for supplementary teaching and extracurricular activities. Offering enrichment lessons in English and Mathematics, the core academic programme is held on Tuesday, Wednesday and Thursday afternoons. Boys attend on a fourth afternoon to take part in a range of sporting and cultural activities. St John's College builds men rightly trained in body, mind and character and the students of the Prep Academy continue to thrive in an environment that brings support, consistency and structure – so critical to childhood development.

We aim to provide a holistic experience that acknowledges the individual child and prioritizes academic progress and results,

paving the way for better high school opportunities.

This year, in addition to an academic programme, the Prep Academy offered swimming, soccer, art, athletics, strength & conditioning, cricket, tag rugby and hockey skills and chess. Asteri Primary School participated in the Phendulani Literacy Quiz at Roedean School, where they excelled. The Academy boys also visited Masibambane in Orange Farm to participate in sporting tournaments and to broaden their social base.

We congratulate our Class of 2024, and graduating boys will be attending neighbouring schools within our community such as KES, Athlone Boys, Parktown Boys, Highlands North and Barnato. We aim to keep in touch with their parents and the boys and where possible, invite students to return to the College Academy in grade 10.

I am grateful. This year was very fun. I enjoyed this year although it was tough and the motto Lux, Vitas, Caritas kept me throughout this hectic year. I've learnt that after a long day or year of work, there is always a reward. I felt respected by everyone at St John's College. I've also learnt many new techniques for mathematics and english. I must admit that managing both the Academy and my usual school was very difficult but it taught me to have a better sense of responsibility for my academic and personal life. This year was quite hectic (mainly in the first term) I am very proud and grateful to be in the St John's College Academy programme. This programme made me look at myself from a different perspective both academically and traditionally. Thank you to everyone who made this year special and memorable.

**Venant**  
*Yeoville Community School*

## SCHOLARSHIPS AND BURSARIES

---

It is important that St John's College makes every effort to accommodate aspiring young Johannians with exceptional potential, regardless of their financial means.

We are extremely grateful to our donors who contribute to student **Scholarships and Bursaries**. It is the most substantial way to make a meaningful difference in a young person's life, with exponential benefits as that person goes on to contribute to society, to support their own families and communities and ultimately, to pay forward the advantage they had through the generous support of others.

The **Centenary Scholarship**, our flagship student support programme, is truly a life-changing gift for the recipient. This is demonstrated by the exceptional results achieved year after year by our Centenary Scholars and the impressive contributions they have made since leaving school, proving that an excellent education is the best gift you can give, one that will benefit the recipient for the rest of their lives.

"The epitome of a good leader is someone who can impact others, and make them good leaders. The scholarship programme is one mechanism of being able to do so. We are all bound by our humanity and because of that we all share a common love for one another, and that love should extend towards continuing to give to other people."

***Siza Gule (Nash 2025) - Head of School 2025  
and Centenary Scholarship Recipient***

"The thing that St John's has done in my life, is to open my eyes to a lot of the opportunities that are out there, I think that I used those opportunities to the best of my ability."

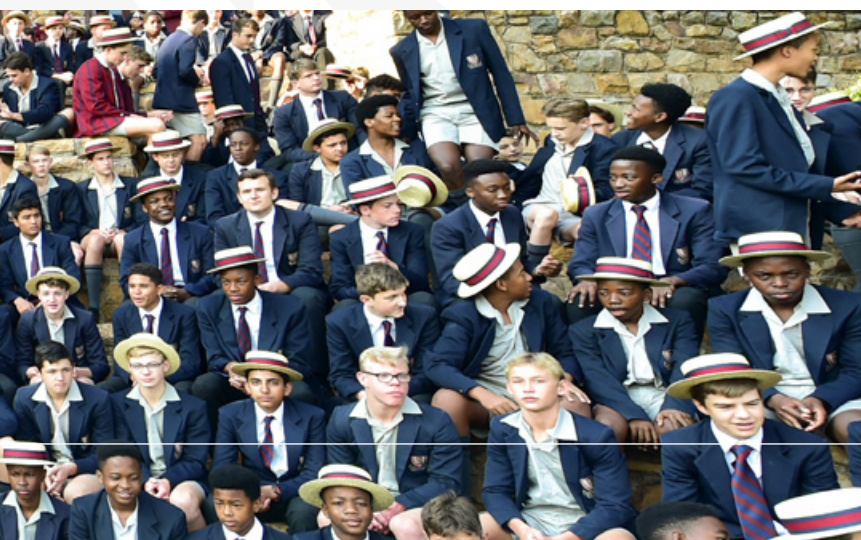

***Tsholofelo Kgobe (Hill 2019) -  
Centenary Scholarship Recipient***

"St John's gave me a lot of confidence, by trying out things and having that space to fail, but learning from your failures and moving forward from that."

***Tshepo Machele (Alston 2005)  
- Centenary Scholarship Recipient***

"I always wanted to do electrical engineering, and I feel that the Academy and 6th form have made it possible for me to achieve those dreams."

***Lennox Phofu (Runge 2024) - Academy Graduate  
and 6th Form Scholarship Recipient***

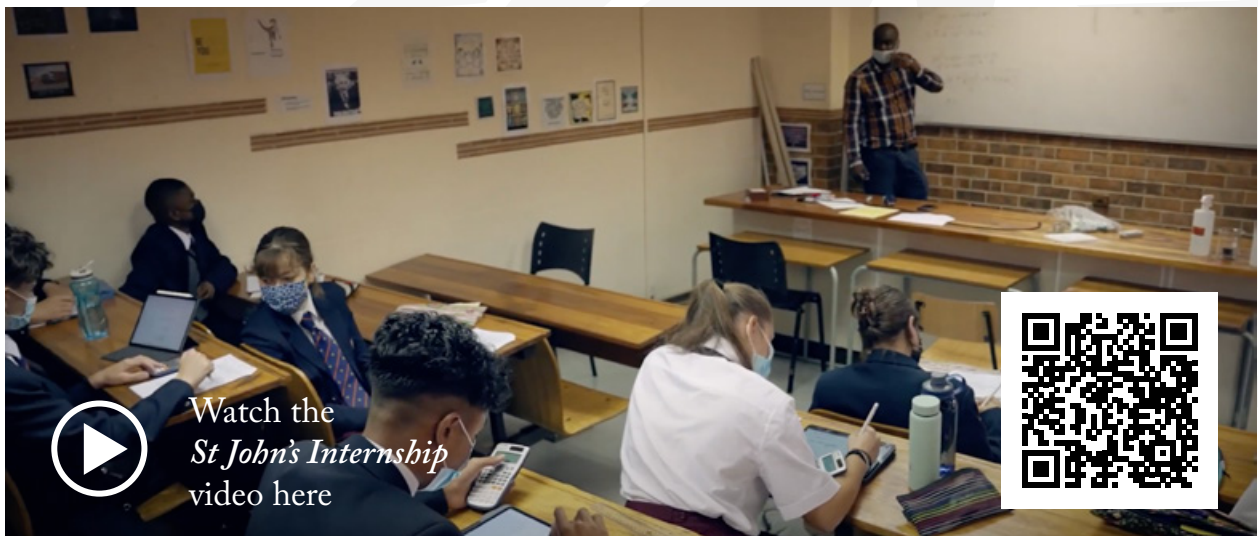

## ST JOHN'S COLLEGE TEACHER INTERNSHIP PROGRAMME

---

Our teacher internship programme offers an environment which ensures that prospective teachers are afforded unparalleled experience as they train to become educators. The St John's Foundation, through donor contributions, supports the interns on various levels, including university fees, stipends, books, accommodation, and most importantly, relevant and practical teaching experience.

The intention of this project is to shape confident, inspired and inspiring teachers who will pass the gift of quality education on to future generations. A single teacher touches the lives of many, and the effect is exponential. To recruit prospective teacher interns, we work closely with Wits University to secure passionate and dedicated young adults, who are studying their Post-Graduate Certificate in Education (PGCE). This adds significantly to their practical teaching experience as they study, and enables St John's to give back to the educational sector while contributing to the growth and development of excellence in educators.

---

**Erin Lai-Thom**  
Teacher Intern 2024 - 2025

"The St John's staff are extremely friendly and welcoming. The facilities are beautiful and well maintained. The maths department has been incredibly informative, helpful and supportive.

I get incredible learning and teaching experience, from incredibly knowledgeable teachers. I have had the opportunity to be mentored by an amazing teacher, who has given me plenty of teaching time and advice. I've started to find my style of teaching, and I have been able to become far more knowledgeable about the various syllabuses."

**Dominic Lund**  
Teacher Intern 2023 - 2024

"My experience at SJC was fantastic - I was able to work with a number of quality teachers and had the opportunity to understand and work within the culture of the school during my practical studies. I have developed professionally and personally at SJC. Being an intern has helped me to grow and learn how to teach within a classroom, how to engage with colleagues and how academic standards are maintained through professionalism and rigorous assessment and pastoral processes."

## Sikwenza Ngothando - Support Staff year-end appeal

**Sikwenza Ngothando** translates from isiZulu to "we do it out of love", and it is an appeal to all St John's Parents to show some love and gratitude to the wonderful St John's College support staff, by donating towards the fund which then enables each support staff member to receive a Checkers voucher at the end of the year.

Organised by the Parents Association, the 2024 drive raised over **R100 000,00** - our best collection ever. We are so grateful to the extremely generous St John's College community who supported this initiative, and gave so open-heartedly - it has certainly made a significant difference in the lives of those who help us all on a daily basis.

## MOBILISING THE POWER OF GIVING

---

St John's is more than a school – it is a tight-knit, passionate community of students, Old Johannians, parents, Old Johannian parents, and staff – who all care deeply about its present, its future, and its history and heritage. Over the last 125 years, thousands of people's lives have been influenced by their time at St John's.

Today's students may not yet realise the profound influence that their school days will have on their futures. Old Johannians – from all around the world – who matriculated decades ago, return to the school and still feel a deep connection to the place that was so formative in their lives. Parents who have chosen to entrust their children's education to St John's, many of them Old Johannians themselves, make significant sacrifices because they know the value of the gift of an exceptional education.

The support of these members of the St John's family all over the globe is crucial to sustaining the future of the school. Through the power of a broad base of donors – contributing through regular giving, once-off major gifts, class gifts and bequests – we can ensure that generations to come have the same precious privilege of a St John's education.

### MAJOR GIFTS

The success of the *Beyond 125 Campaign* will depend highly on the extraordinary generosity of our closest friends. You may wish to make a one-off major gift to a project of your choice that reflects your passions and what matters most to you. If you would like to make a bespoke gift of this kind, please contact the Advancement Office to work with you on this important investment.

### BEQUESTS - A GIFT TO THE FUTURE

Your education at St John's College is one of the strongest influences to have shaped you. And if that experience and your education is close to your heart and part of your success in life, you might also consider including St John's College as a beneficiary in your will. This is a generous gift to the future that costs you nothing now.

Your will is important in general terms because it carries your wishes about how your hard-earned assets will be used when you no longer require them. Its importance in personal terms is greater – in that it secures the future of your loved ones after your lifetime.

But there can be even more to your will. Any additional bequests are also a reflection of who you are, what your values are, and what visions for the future you may have.

Leaving a bequest to the St John's Foundation in your will is a deeply meaningful way to give back to future generations of Old Johannians and ensure that the College continues to provide high quality-education for all who come here. It also inspires others to give back.

## **ST JOHN'S FOUNDATION ENDOWMENT**

Every donation, no matter the size, helps to grow the fund exponentially. As the principal amount is never spent, your contribution will not be depleted, but will continue to grow over the years. All contributions are added to a pool of funds that are expertly managed to ensure maximum growth and sustainability over time.

The proceeds from this Endowment allow the Foundation to issue grants to St John's according to the greatest needs or best opportunities for the College at the time.

## **CLASS GIVING**

One of the most effective ways to support scholarships and bursaries is to coordinate a class-giving initiative.

Perhaps you're grateful for the different ways that St John's opened doors, helped you grow, introduced you to lifelong friends, or allowed you to find your own path. Contributing to, or volunteering to coordinate, your year's class giving initiative is a meaningful and tangible way to give back. You can give your time, make a contribution, call your friends, send emails, or organise a reunion — there are many ways to make a difference, and lots of flexibility in making your volunteerism fit into your busy schedule. Volunteers are vital to the success of class reunion campaigns. Whether you're able to reach out to hundreds of classmates or just a few close friends, you will renew past friendships and create new bonds.

The power of collective, regular giving through a year group initiative can make a significant difference in the life of a young man, giving him the same opportunity that you were given: the life-long gift of a St John's education.

## **REGULAR GIVING**

Regular giving is the easiest way to make a long-term contribution that adds up consistently over time. Donors can choose to make a monthly or annual contribution. You can select any project of your choice for the funds to be allocated to. All contributions, no matter the size, make a difference.

## HOW TO GIVE

---

Donations can easily be made via the [online giving portal](#) on the St John's College website. You can link to either the **SA, USA or UK Foundations** through this portal. You can make a donation with a credit card, an EFT or Snapscan QR code, and you can choose to make a once-off or regular gift of any size.

Please contact the Advancement Office directly if you would like to discuss a **Major Gift** or a **Bequest**: [Advancement@stjohnscollege.co.za](mailto:Advancement@stjohnscollege.co.za)

## DONOR RECOGNITION

---

With your permission, all gifts, no matter how big or small, will be honoured on donor boards, in campaign reports, on the website and, for donations over R1000, on the *Beyond 125 Campaign* Donor Wall in the Rene England Auditorium.

At a certain level of contribution, the school would like to honour our donor with naming rights for a facility, bursary or scholarship. This can be in the name of your family, your class, or somebody who you would like to honour. Please speak to the Advancement Office for more details.

## BENEFITS OF GIVING

---

Bona fide gifts may qualify for tax benefits, subject to local tax legislation. More details about the terms and conditions of tax benefits can be found on the [Giving Portal](#). Please contact the Advancement Office in South Africa or the relevant country representative to find out more.

## With sincere thanks to our 2024 donors
