### Getting you on the right path

MyCareerPath supports high school learners to uncover a world of career possibilities open to them. I help to establish the learner's suitability and potential in pursuing certain career paths.

Through an in-depth assessment process, each learner is empowered with a better understanding of themselves as well as an appreciation of those career paths that are most suited to their profiles. This equips each learner to chart out both High School subject choices and University course choices that are most aligned to their high-potential career paths.

Learners at MyCareerPath benefit from a renewed level of energy, focus and drive on the back of creating clarity for themselves on which career paths to pursue.
